INTRODUCTION

I am a B.Tech Computer Science student (AIML specialization) currently in my 3rd year. I have a keen interest in Artificial Intelligence, Machine Learning, and network security, and I am passionate about developing innovative and secure technological solutions.

TECHNICAL SKILLS

Languages: C, Python, Java, HTML, CSS, JavaScript, DART.

Technical and Software: MySQL, Web Dev, App Dev, Data Manipulation

Soft Skills: Teamwork, Strong Communication Skills, Adaptability and Quick Learning

EDUCATION

Kanpur Institute of Technology

Bachelors of Technology

2023–present

Kanpur, Uttar Pradesh

Maharishi Vidya Mandir Public School

2021 – 2022

Intermediate

Hamirpur, Uttar Pradesh

Hind Angels Public School

2019 – 2020

High school

Rath Hamirpur, Uttar Pradesh

PROJECTS

Smart Hazri | Python, HTML, CSS, JavaScript, Bootstrap, MySQL

2025

A face recognition–based attendance system that automatically marks attendance using AI and camera input. Built using Python and OpenCV for accurate and efficient attendance tracking.

Library Management | Python, Web Dev, MySQL

2024

A web-based application designed to manage book records, user details, and issue/return processes efficiently. It allows librarians to track books digitally, reducing manual work. Developed using HTML, CSS, JavaScript, and MySQL for database handling. Ensures quick book search and accurate data management.

Map Shield | Java, Node JS, Google Maps API, Cloud

2025

A safety-focused web application that suggests the safest routes using real-time data like road conditions, street lights, crime rate, and accident history. Integrated with Google Maps API for route visualization and navigation. Users can rate and share feedback based on their travel experience. Designed to enhance public safety through smart navigation

Weather NEX | Web Dev, Weather API, Cloud

2024

Developed a web-based application that predicts real-time temperature and weather conditions using Weather API integration. Designed the system to fetch live meteorological data, process it through Python, and display accurate forecasts. Focused on creating a simple, user-friendly interface for quick weather insights.

Certifications

- Actively Participated in **HACK With UP** Hackathon at Chandigarh University.
- Participated in **SYNTAXX SOLVER SERIES** at KIT Kanpur by Hacker Rank.
- Certificate of completion “**Cyber Security Job Simulation**” by Deloitte.
- Certificate of completion in **Python 101 for Data Science** powered by IBM.

EXTRACURRICULAR Activities

- Actively participated in Sports and other activities.
- Winner of Tug Of War in 2025 at college level.
- Served as head and coordinator for college events and seminars.
